

ANIMAL SCIENCES INSTITUTE QUETTA

Animal Sciences Institute Quetta, is a strong and a basic prerequisite unit of Livestock and Dairy Development Department Balochistan. The Institute started with the name Para-Veterinary Training Institute Quetta in 1977, with the aims to provide training to in-service untrained Stock Assistants and Para Veterinary staff.

Beside this it also offers two years certificate course for private candidates who possess Matric 2nd division in Science with Biology subject. The candidates other than Balochistan Province may also apply for admission in Animal Sciences Institute Quetta.

Animal Sciences Institute also conduct refresher courses, seminars, short courses for Veterinarians, as well as for the Para-Vets of the department. Institute also arranges the Pre-Posting Training Programs for newly appointed Veterinary Officers of the department. Short courses on demand from various Semi-Government / NGOs, i-e Relief International, FAO, Mercy Corps, were also arranged many times in past.

The Institute has a history of 47 years of engaging in training of in-service un-trained Stock Assistants and Para Veterinary staff about animal's nurturing, management, diagnosis, prevention, and treatment of diseases. The Institute is famous for accurate, modern, conceptual, and complete skills for animals, pets, poultry and other fancy birds rearing, management vaccination and treatments.

Objectives

- Improve quality of animal health care and welfare by making available specialized knowledge and skills for the mutual benefits of animal kingdom and mankind.
- Development of Knowledge based Animal's health care to improve production through linkages between milk, meat and animal nutrition sciences.
- To improve and strengthened the Veterinarians and Para-Veterinarian professionally in order to serve better livestock population (at herd, region and national level), the livestock owners and the general public.
